The National Park Service has reviewed the "Historic Certification Application – Part 2" for the above-named property and has determined:

- ☐ that the rehabilitation described herein is consistent with the historic character of the property or the district in which it is located and that the project meets the Secretary of the Interior's "Standards for Rehabilitation." This letter is a preliminary determination only, since a formal certification of rehabilitation can be issued only to the owner of a "certified historic structure" after rehabilitation work is completed.
- ☐ that the rehabilitation or proposed rehabilitation will meet the Secretary of the Interior's "Standards for Rehabilitation" if the attached conditions are met.
- ☐ that the rehabilitation described herein is not consistent with the historic character of the property or the district in which it is located and that the project does not meet the Secretary of the Interior's "Standards for Rehabilitation." A copy of this form will be provided to the Internal Revenue Service.

**HISTORIC PRESERVATION
CERTIFICATION APPLICATION –
PART 2**

NPS Office Use Only

Project Number: **5. DETAILED DESCRIPTION OF REHABILITATION / PRESERVATION WORK** – Includes site work, new construction, alterations, etc. Complete blocks below.

Number 1	<div>Architectural feature <u>South elevation</u></div> <div>Approximate Date of feature <u>1922 - 1928</u></div>	<div>Describe existing feature and its condition: 1. The masonry, brickwork, clay roof tiles, paint, and decorative features of the principle South elevation façade are in good condition. 2. The large main covered entrance on the southern elevation is in good condition, and the secondary entrance is in good condition. 3. The windows on the South elevation are in good condition.</div> <div>Describe work and impact on existing feature: 1. The South façade of the building shall receive minor repairs as necessary. No significant changes shall be made to preserve the decorative elements, the basic form, and the main masonry openings. 2. The doors and windows shall be maintained or receive minor maintenance repairs.</div> <div>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #30 Preservation and Repair of Historic Clay Roof Tiles.</div>
<div>Photo no. <u>1-3, 22-26, 27-28,</u></div> <div>Drawing no. <u>A5, A6, A7, A8, A9</u></div>		
Number 2	<div>Architectural feature <u>East and West elevations</u></div> <div>Approximate Date of feature <u>1920s</u></div>	<div>Describe existing feature and its condition: 1. The East and West elevations are secondary façades whose masonry, brickwork, clay roof tiles, paint and decorative features are in good condition. 2. The windows on these elevations are in good condition.</div> <div>Describe work and impact on existing feature: 1. The East and West façades of the building shall receive minor repairs as necessary. No significant changes shall be made to preserve the decorative elements, the basic form, and the main masonry openings. 2. The doors and windows only require minor maintenance repairs.</div> <div>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #30 Preservation and Repair of Historic Clay Roof Tiles.</div>
<div>Photo no. <u>5, 6, 9, 19, 20, 21, 22</u></div> <div>Drawing no. <u>A5, A6, A7, A8</u></div>		
Number 3	<div>Architectural feature <u>North elevation</u></div> <div>Approximate Date of feature <u>1920s</u></div>	<div>Describe existing feature and its condition: 1. The North façade of the building was designed as the back of the building with a lesser significance, and whose masonry, brickwork, clay roof tiles, paint and decorative features are in fair to poor condition. The main problem with this façade is the existence of a number of low quality additions for storage and kitchen area as shown in the photographs. This side of the building was more important historically than it is presently due to these additions.</div> <div>Describe work and impact on existing feature: 1. The North façade of the building shall have the numerous storage areas demolished to take the building back to the main structure. 2. There will be a general upgrade to this entire elevation, with the reconfiguration of interior space and the addition of some space to have a modernized grill and lounge facilities on the interior. 3. Exterior improvements such as walkways, patio areas, an entryway, and outdoor porches will return the functional utility that this elevation once enjoyed. 4. Existing windows are in good condition, and new windows shall be approved by the SHPO prior to installation.</div> <div>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #30 Preservation and Repair of Historic Clay Roof Tiles.</div>
<div>Photo no. <u>9, 10, 12 – 19</u></div> <div>Drawing no. <u>A5, A6, A7, A8, A10</u></div>		
Number 4	<div>Architectural feature <u>Interior Systems & Decoration</u></div> <div>Approximate Date of feature <u>1920s</u></div>	<div>Describe existing feature and its condition: 1. The interior of the building is in good condition. However, the systems of the building are antiquated and must be modernized because the structure is approaching functional obsolescence. Kitchens, HVAC, plumbing, and electrical are the systems primarily with problems. 2. Existing rooms need general painting, recarpeting and redecorating in addition to functional improvements.</div> <div>Describe work and impact on existing feature: 1. The HVAC system requires modernization. Ductwork exists in all spaces, and renovation shall not impact wood trim, ceiling heights or other elements of historic character. The wiring and plumbing shall be modernized as required to allow for future needs. Historic features throughout the interior shall be preserved and updated, but no work having a significant negative impact on the existing fabric is foreseen.</div> <div>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #18 Rehabilitating Interiors in Historic Buildings – Identifying Character-Defining Elements. #24 Heating, Ventilating and Cooling Historic Buildings: Problems & Recommended Approaches.</div>
<div>Photo no. <u>13 – 17, 29 – 64</u></div> <div>Drawing no. <u>A3, A4, A5, A6, A7, A8</u></div>

Property Address

NPS Office Use Only

Project Number: _____

Number 5	<p>Architectural feature <u>Interior Layouts</u></p> <p>Approximate Date of feature <u>1920's</u></p> <p>Describe existing feature and its condition: 1. The interior layouts of the building have been remodeled over time in ways that work against some aspects of the historic flow of the space. 2. For example, the secondary entrance on the South elevation is largely unused. 3. Also, the North elevation originally made more use of the outstanding views over the golf course, but has lost that use to favor storage and delivery facilities which have no historic character.</p> <p>Photo no. <u>13 – 18, 29 – 64</u> Drawing no. <u>A3, A4, A5, A6, A7, A8</u></p>	<p>Describe work and impact on existing feature: 1. The proposed remodeling of the interior layout shall both improve the club for current and future use, and restore the traditional flow of space that has been compromised over the years. 2. The Secondary entrance on the South elevation will have its original importance restored in the circulation pattern of the interior rooms, while the traditional flow from the main entrance is preserved.</p> <p>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #18 Rehabilitating Interiors in Historic Buildings – Identifying Character-Defining Elements. #24 Heating, Ventilating and Cooling Historic Buildings: Problems & Recommended Approaches.</p>
Number 6	<p>Architectural feature <u>General New Additions</u></p> <p>Approximate Date of feature <u>1920s</u></p> <p>Describe existing feature and its condition: 1. The North elevation will be improved, mainly by the removal of parasitic additions such as sheds, storage, and loading dock facilities.</p> <p>Photo no. <u>13 – 18, 29 – 64</u> Drawing no. <u>A4, A6, A8, A9, A10, A11</u></p>	<p>Describe work and impact on existing feature: 1. The North elevation shall be improved by replacing shed, storage and loading dock construction with grill and lounge areas and a North entrance. The North entrance is located opposite the secondary South entrance, creating a rational flow through the space. 2. A new service entry shall be constructed largely underground, which allows for the views from the building to the north to be unobstructed by unsightly utilitarian constructions. 3. A fitness room shall be added next to the kitchen mechanical room on the second floor.</p> <p>The following National Park Service Preservation Briefs shall be followed: #17 Architectural Character Identifying the visual aspects of Historic Buildings as an Aid to Preserving their Character. #14 New Exterior Additions to Historic Buildings – Preservation Concerns.</p>
